

	Wednesday, 6th May
14:00 - 15:00	Keeping the patient safe outside the ICU Keeping the patient safe outside the ICU
	How can big data help us
	Predictive analysis in ICU - Hipotensive Index
	How to monitor patients in the ward
15:00 - 16:00	The failing heart
	Drugs and devices in acute cardiogenic shock
	Do we need Cardiogenic shock centres?
	Destination Therapy
16:00 - 16:30	COFFEE BREAK
16:30 - 17:30	Hematological challenges
	Thrombotic microangiopathies
	Macrophage activation syndrome
	The hematological patient in the ICU
17:30 - 18:00	Year in review

	Thursday, 7th May
8:15 - 9:00	Oral Presentations
9:00 - 10:00	Unmasking magic numbers
	In respiratory support
	In haemodynamics
	In neurocritical care
10:00 - 11:00	CPR - Strengthening the chain of survival
	ROSC - what's next
	What's new in ischemia/reperfusion injury
	Out-of-hospital E-CPR: The challenge of implementation
11:00 - 11:30	COFFEE BREAK
11:30 - 12:00	Sepsis phenotypes
12:00 - 13:00	New trends in CRRT
	High cutoff
	CVVHF vs CVVHD vs CVVHDF
	Catheters
13:00 - 14:30	LUNCH
14:30 - 15:30	ACLF Changing minds and convictions
	Defining ACLF and reasons why to support in ICU
	Management of ACLF and local experience
	Decisions on futility and prognosis
15:30 - 16:00	Transport of the critically ill patient
16:00 - 16:30	COFFEE BREAK
16:30 - 17:30	Challenges in mechanical ventilation
	Is there a place for VVECMO prior to invasive mechanical ventilation?
	Is Esophageal pressure useful in the spontanepus breathing ARDS?
	Impedance tomography, how does it fill in?
17:30 - 18:00	Neurocritical Care: Intracerebral Haematoma - state of the art
	ICH in 5'
	Panel discussion

	Friday, 8 th May
8:15 - 9:00	Oral Presentations
9:00 - 10:00	How not to drown your patient
	Predicting fluid responsiveness
	Venous congestion
	How I do it - putting all together
10:00 - 11:00	New answers for old dilemmas in infection
	Rapid diagnosis of infection
	Diagnosing uncommon infections
	Viral infection in the ICU
11:00 - 11:30	COFFEE BREAK
11:30 - 12:00	Major Epidemics
12:00 - 13:00	Sepsis - Beyond antibiotics and fluids
	Vitamin C - beyond the hype
	Methylene Blues and other magic bullets
	Oxygen targets in critically ill septic patients
13:00 - 14:30	LUNCH
14:30 - 15:30	Paliative Care
	Palliative Care in the ICU: Do's and don's
	Patient selection and timing of referral
15:30 - 16:00	Steroids in ARDS
16:00 - 16:30	COFFEE BREAK
16:30 - 17:30	Post Intensive Care syndrome - patient & family follow up
	The Portuguese reality
	Post Intensive Care syndrome - the patient
	Post Intensive Care syndrome - the family
17:30 - 18:00	Is there room for private intensive care ? PRO-CON
18:30	Closing Session
