XXIV CONGRESSO NACIONAL DE MEDICINA INTENSIVA

24 a 26 de Novembro 2021
HOTEL IPANEMA
PARK • PORTO

COVID-19 and Intensive Care Medicine

SPCI SOCIEDADE PORTUGUESA DE CUIDADOS INTENSIVOS

24. Nov

08h30-09h45 **Issues with critically ill**

COVID-19 patients
Effective drugs - what and when?
Why is VAP more frequent?
CAPA: a relevant threat?

09h45-10h15 **Opening ceremony**

10h15-10h45 **Coffee-break**

10h45-12h00 **Lung support in critically ill**

COVID-19 patients
Effective strategies to reduce the need on IMV
Limiting iatrogenic injury is the key issue!
ECMO support in COVID-19: a critical analysis

12h00-13h00 **Simpósio satélite MSD: Antibiotics: Cherish or Perish**

13h00-14h30 **Lunch**

14h30-15h00 **Critical COVID-19: The National Response**

14h30-15h45 **Neurocritical care: an update**

Fluid and electrolyte management
Protecting the brain
Is there a role for TTM in severe TBI?

15h45-16h30 **Speaker's corner**

16h30-17h00 **Coffee-break**

17h00-17h30 **ICM after COVID-19: Opportunities and threats**

17h30-18h00 **The ICU enters the information age**

The new WWW revolution
AI as diagnostic tool for sepsis
High-fidelity simulation for critical care training

Going beyond COVID (thank God!)

25. Nov

08h30-09h45 **Microbiological diagnosis is a key issue in infection of critically ill patients**

The critical interface between the microbiology lab and the ICU
Where are we going with molecular diagnostics?
Current tools for the diagnosis of fungal infection in critically ill patients

09h45-10h15 **Update on HAP management**

10h15-10h45 **Coffee-break**

10h45-12h00 **Antimicrobial stewardship and Intensive Care Medicine**

Impact of antimicrobial resistance in critically ill patients
Antimicrobial stewardship and sepsis fast-track programmes: two sides of the same coin?
Antibiotic treatment duration in the ICU: go short!

12h00-12h30 **Is Marik's cocktail dead?**

12h30-14h00 **Lunch**

14h30-15h30 **The road less travelled: Under appreciated issues in the ICU**

Atrial fibrillation
Management of severe hypertension
Managing coagulopathy

15h30-16h00 **Setting the tone: The CIMBA study**

16h00-16h30 **Coffee-break**

16h30-18h00 **Extra-corporeal organ support**

Cardiogenic shock - the role of ST-MCS
Timing of RRT - is the issue settled?
Current perspectives about ECCO2R in clinical practice

18h00-18h30 **ICU benchmarking: What you need to know.**

26. Nov

08h30-09h45 **It's all about synchrony**

Airway Pressure Release Ventilation - can it help?
Neurally Adjusted Ventilatory Assist - is it the gold standard?
Automated waveform analysis - are we ready for it?

09h45-10h15 **Coffee-break**

10h15-11h30 **Nutrition in the critically ill**

Another case of less is more?
Tailoring therapy using indirect calorimetry.
Combining enteral and parenteral nutrition: when and how?

11h30-12h00 **What is new in post-resuscitation care?**

12h00-13h00 **The patient at the center of care**

Informed consent in Intensive Care Medicine
Palliative care in the ICU
The patient's perspective

13h00-14h30 **Lunch**

14h30 **Debate: "The future of ICM in Portugal"**

COURSES
22 and 23 Nov

> FloW & Ventil8 <

> ATCIC Bronchoscopy <
